of Application Number 82349

, filed on December 10

by Young Bros

for the

waters of underground (northern part of Big smoky valley, basin 137B)

situated in Lander

an underground source or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:

The Young Brothers are applying for a water right to underground water that would supply 14.6 acre feet/year to water 650 cattle in the Kingston allotment, which is managed by the BLM's Mount Lewis Field office. The water source is a well from a previous mining operation, which was intended to be capped, and is located on land that was reclaimed by the BLM. The BLM is protesting because it would be detrimental to public interest for the following reasons: 1) the terms of their grazing permit only allow 257 cattle, but the water right application is for 650 cattle, 2) the range improvement has not been authorized by the BLM, and has therefore, not been analyzed for environmental impacts, 3) basin 137B (Big Smoky Valley) is already designated, and 4) the range improvement would concentrate cattle use on the reclaimed site, compromising the federal restoration investment.

THEREFORE the Protestant requests that the application be

Denied

Denied, issued subject to prior rights, etc., as the case may be

and that an order be entered for such relief as the State Engineer deems just and proper.
