STATE ENGINEER'S OFFICE

PROTEST

Comes now Kristine L. McFarland

Printed or typed name of protestant

whose post office address is 4211 England Dr., Pahrump, NV, 89048

Street No. or PO Box, City, State and ZIP Code

whose occupation is House Wife

and protests the granting

of Application Number 83352, filed on 31st day of December, 20 13

by Utilities Inc. of Central Nevada of Pahrump, Nevada for the

waters of an underground source at a point located in Section 31, T20S, R54E situated in Nye

an underground source or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:

The amount of water withdrawal that is being proposed when combined with application 83353 is significantly more than the fragile groundwater in this area will withstand. Pumping of the water will be detrimental to the public interest by conflicting with existing domestic wells and owners in this area will face a significant financial burden if the groundwater level is dropped to or below the level of their pumps. Each DW owner could incur out of pocket expenses for either lowering their pump to accommodate reduced water levels or incur even higher costs by having to increase the depth of their well. If my calculations are correct the combined withdrawal could be 700 a.f. annually although Certificate 10975 has a duty balance of only 39 AFA. The Nye County Board of County Commissioners has appointed a Ground Water Plan Advisory Committee to address the over allocation of water rights in Basin 162. The State Engineers Office has committed to supporting this Committee and should honor their pledge by not allowing diversion points to be changed.

THEREFORE the Protestant requests that the application be denied

Denied, issued subject to prior rights, etc., as the case may be

and that an order be entered for such relief as the State Engineer deems just and proper.
