for the

waters of Underground

situated in Lyon ~~The proposed place of use~~

an underground source or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:

~~The proposed place of use of Application 83478T covers about 340 acres. Through a telephone conversation with the applicant it was learned the they plan to irrigate only 220 acres. The proposed use is intended to supplement Walker River Claim 163 of the Walker River Decree. Claim 163 represents only 1.68 cfs with various priorities along with supplemental storage. With the extreme draught experienced in western Nevada the surface water will run out early. Even with the 105 AF filed for in Application 83478T that is not nearly enough to irrigate 220 acres~~
