Street No. or PO Box, City, State and ZIP Code

whose occupation is Civil Engineer/Consultant

and protests the granting

of Application Number 83583T, filed on February 28, 20 14

by Desert Pearl Farms for the

waters of underground situated in Lyon
an underground source or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:

My well, Permit 19758 C-6486 is less than a half mile from the proposed well. With such a dry year there will be very little recharge. The Walker River Irrigation District has advised users to take their stored water early because it won't last long. As it is, they are projecting only 11% of normal allocation. It is a little uncertain whether the proposed place of use still has any decreed water or stored water. The proposed place of use has not been irrigated or farmed in many years. Water levels in this area have already dropped significantly. Pumping over 1000 gpm so near my well will surely have an impact on my well. I had to deepen my well in 2012 and increase the horsepower in the pump because the water table had dropped by several 10's of feet. I have one of the oldest water rights in this end of the valley.

THEREFORE the Protestant requests that the application be denied

Denied, issued subject to prior rights, etc., as the case may be

and that an order be entered for such relief as the State Engineer deems just and proper.

Signed
