whose occupation is Conservation District

and protests the granting

of Application Number 84429, filed on May 21, 20 14

by Rodney St. Clair for the

waters of Underground Source situated in Humboldt  
an underground source or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:

Allowing water to be transferred from agricultural use to industrial use, and allowing that water being taken out of a basin, by pipeline or otherwise, will put a strain on other water users and surface springs. This will infringe on the rights of other water right users within the basin and threaten their livelihood as well as threaten wildlife used by any number of people throughout the area. The concern of this board is that if one permit is allowed to be used in this way it will set a dangerous precedent and threaten the waters within our district. It is our responsibility to see that natural resources are managed in a responsible way taking into account environmental impact as well as the well being of the constituents within our district. It is the belief of this board that allowing water to leave to another county, community ect. within our district or elsewhere, is not the most responsible use of our most valuable commodity.

THEREFORE the Protestant requests that the application be

Denied

Denied, issued subject to prior rights, etc., as the case may be

and that an order be entered for such relief as the State Engineer deems just and proper.
