of Application Number 85263, filed on June 25, 20 15

by Rodney St. Clair

for the

waters of Double Hot Springs Well

situated in Mud Meadow - 026

an underground source or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:

Quinn River Conservation District is concerned about our most valuable commodity, our water, leaving our district. We are concerned about the impact this could have on our water basin, springs and the wildlife that rely on them. We are also greatly concerned about the impact on the financial well being of our district members, as many rely on the water for their primary source of income. We do not want to see the precedent of water being allowed to be transferred out of basins.

THEREFORE the Protestant requests that the application be

DENIED

Denied, issued subject to prior rights, etc., as the case may be

and that an order be entered for such relief as the State Engineer deems just and proper.
