and protests the granting

of Application Number #85303, filed on July 13, 2015

by Gerial Boileau for the

waters of an underground source (refer to map for permit #58481-Turf Farm) situated in Lyon

an underground source or name of stream, lake, spring or other source

County, State of Nevada, for the following reasons and on the following grounds, to wit:

A serious and ongoing drought is in progress. There has been no recharge to ground waters while continued pumping exists. It is very possible the situation will worsen with continued drought. A number of wells (both domestic and irrigation) in the immediate area have already been effected by declining water tables. This area also has a long history of water concerns and is identified by Nevada Water Resources as a threatened location for future well failures. Transferring any further ground water permits would be detrimental to the shrinking water table and to residents of the area.

THEREFORE the Protestant requests that the application be

DENIED due to existing conditions

Denied, issued subject to prior rights, etc., as the case may be

and that an order be entered for such relief as the State Engineer deems just and proper.
