R U L I N G

General:

107 Application No. 18879 was filed to appropriate 6.0 c.f.s. of water from an underground source within the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 9, T. 10 N., R. 24 E., M.D.B.&M., for the irrigation of 300-acres of land.

Protests to the granting of this application were filed as follows:

On July 7, 1960, by Bruno Fenili;

On August 8, 1960, by Norman D. Brown, Inc.

It is the opinion of this office that there is unappropriated water in the source, and the well will not cause interference with other existing water rights.

RULING

The protests to the granting of this application are here-with overruled on grounds that its granting will not impair the value of existing water rights or be otherwise detrimental to the public welfare.

A permit will be issued under this application on receipt of the statutory permit fee and subject to the following provisions:

- (1) The water must be used in conjunction with present water supplies;
- (2) The water granted under the permit is limited to supplemental use and is appurtenant to the 300 acres having existing water rights.

Respectfully submitted,
