GENERAL:

Application 27804 was filed on October 2, 1973 by George Witz to appropriate 0.020 c.f.s. for the waters of an underground source to be diverted within the NE $\frac{1}{4}$ NE $\frac{1}{4}$  Section 27, T.17N., R.22E., M.D.B.& M., to be used for the irrigation of 5 acres of land within a portion of the N $\frac{1}{2}$  NE $\frac{1}{4}$  said Section 27 and domestic purposes.

This area was designated on January 22, 1973 by order of the State Engineer. Present information available indicates that the estimated perennial yield of the Dayton Valley ground water basin is 7900 acre feet. Existing water rights of record within the Dayton Valley underground basin exceeds the estimate of perennial yield.

RULING:

Application 27804 is hereby denied on the grounds that the granting of this application for additional withdrawal of water from this area of the Dayton Valley ground water basin would adversely affect and tend to impair the value of existing water rights.

Respectfully submitted,

  
Roland D. Westergard  
State Engineer
