R U L I N G

33A

GENERAL:

Application 29425 was filed on June 9, 1975 by Ulon L. Fluty to appropriate 2.7 c.f.s. of the waters of an underground source located within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 33, T.42 N., R.37E., M.D.B.& M., to be used for the irrigation of 160 acres located within the NE $\frac{1}{4}$ said Section 33 and domestic purposes.

The proposed appropriation under this application is within the Orovada area of the Quinn River Valley. Approved appropriations from ground water within the Orovada area of the Quinn River Drainage Basin exceed the perennial yield of the area.

OPINION:

It is our opinion that the granting of additional appropriations in an area where existing approved appropriations exceed the perennial yield of the area would tend to impair the value of existing rights and be otherwise detrimental to the public welfare.

RULING:

Application 29425 is hereby denied on the grounds that its granting would tend to impair the value of existing rights and be otherwise detrimental to the public welfare.

Respectfully submitted,

Roland D. Westergard
