

IN THE MATTER OF THE DETERMINATION OF)
FORFEITURE AND/OR ABANDONMENT OF)
WATER RIGHTS UNDER PERMIT 20488, CER-))
TIFICATE 7353 TO APPROPRIATE THE)
WATERS OF AN UNDERGROUND SOURCE IN)
DIAMOND VALLEY, EUREKA COUNTY, NEVADA)

R U L I N G

153

GENERAL

I

Application 20488 was filed by Barbara Ann Tolliver Cooper on May 25, 1962 to appropriate underground water for irrigation and domestic purposes. The proposed place of use was the SW1/4 of Section 22, T.21N., R.53E., M.D.B.&M. A permit was issued under Application 20488 on November 20, 1964 for 2.7 c.f.s. of water for irrigation and domestic purposes. Certificate 7353 was issued under said permit on May 19, 1979. 1/

FINDINGS

I

Parties of interest were given notice by letter of January 11, 1978 that a hearing in the matter of determination of forfeiture and/or abandonment of the subject rights was scheduled for February 16 and 17, 1978 in the Eureka County Court House, Eureka, Nevada. 2/ Extensive evidence, testimony and arguments were presented at the hearing. 3/

II

Mr. Ralph Gamboa, Water Commissioner for the State Engineer's office, testified that he had knowledge and familiarity with the SW1/4 Section 22, T.21N., R.53E., M.D.B.&M. dating back to 1973. He testified that in 1973 the well under Permit 20488 was equipped with an Emerald gearhead and a Western pump but there was no motor installed and no crop was grown. In 1974 the pump had been removed and there was no crop. There was no crop in 1975. In 1976 the well was not equipped with a pump or motor but a crop of winter wheat had been planted. However the crop was not irrigated and was not harvested. There was no crop on the property in 1977. Mr. Gamboa identified and interpreted an aerial photograph of the property in question. Said photo was dated September, 1973. 4/ His testimony was that the photograph showed no crop on the SW1/4 of said Section 22. 5/

III

Mr. Wayne Testolin, Water Commissioner for the State Engineer's office testified in concurrence with Mr. Gamboa regarding the use of water on the SW1/4 of Section 22, T.21N., R.53E., M.D.B.&M. for the period 1973 through 1977 and in interpretation of the aerial photograph of the area in question. 6/

IV

Mr. Joe Marion, County Agent with the Agricultural Extension Service, testified that in the fall of 1974, he assisted with a pump test on the well under Permit 20488. However he stated that he had never seen crops on the property. 7/

V

Mr. Everett Groth testified that in 1976, he harvested approximately 40 acres of winter wheat on the SW1/4 of said Section 22 and that Ned Anderson harvested the remainder of the property. He stated that he had never seen water applied from the well under Permit 20488 to the property in question. 8/

VI

There was no evidence, information or testimony submitted that would confirm that water was applied to the SW1/4 of Section 22, T.21N., R.53E., M.D.B.&M. for irrigation of crops during the period 1973 through 1977. 9/

VII

There was a determination and ruling of forfeiture of certificated water rights to appropriate underground water in Diamond Valley, Eureka County, Nevada as of December 3, 1975. 10/

VIII

Order No. 541 was issued by the State Engineer on December 22, 1975 entitled "Notice of Curtailment of Water Appropriation within the Diamond Valley Ground Water Basin". This order included a paragraph indicating that "all applications filed to appropriate water for irrigation purposes on lands in Diamond Valley that had a previous water right lost through forfeiture will be considered for approval on an individual basis and on their own merits". 11/ Notice of this order was published in the Eureka Sentinel on the following dates: December 27, 1975, January 3, 10, 17 and 24, 1976. 12/

CONCLUSIONS

I

The State Engineer has jurisdiction of the parties in the subject matter of this action. 13/

II

The source of water under Permit 20488, Certificate 7353 is underground water.

III

NRS 534.090 provides as follows:

"1. Failure for 5 successive years on the part of the holder of any right, whether it be an adjudicated right, an unadjudicated right, or permitted right, and further whether such right be initiated after or before March 25, 1939, to use beneficially all or any part of the underground water for the purpose for which such right shall be acquired or claimed, shall work a forfeiture of both undetermined rights and determined rights of the right to the use of such water to the extent of such nonuse. Upon the forfeiture of a right to the use of ground water, such water shall revert to the public and shall be available for further appropriation, subject to existing rights. If, upon notice by registered or certified mail to the person of record whose right has been

declared forfeited, such person fails to appeal such ruling in the manner provided for in NRS 533.450, and within the time provided for therein, the forfeiture becomes final.

2. A right to use underground water whether it be vested or otherwise may be lost by abandonment. If the state engineer, in investigating a ground water source, upon which there has been a prior right, for the purpose of acting upon an application to appropriate water from the same source, is of the belief from his examination that an abandonment has taken place, he shall so state in his ruling approving the application. If, upon notice by registered or certified mail to the person of record who had the prior right, such person fails to appeal such ruling in the manner provided for in NRS 533.450, and within the time provided for therein, the alleged abandonment declaration as set forth by the state engineer becomes final." 14/

IV

The water rights under Permit 20488, Certificate 7353 are "permitted rights" and "determined rights" as described in NRS 534.090 and are therefore subject to the provisions of that statute.

IV

The 1967 State Legislature amended NRS 534.090 to provide that forfeiture would apply to both undetermined and determined rights. 15/

VI

NRS 534.090 clearly sets forth and provides that forfeiture shall apply whether such rights be initiated after or before March 25, 1939.

VII

The Nevada State Legislature was fully aware of the issue regarding forfeiture of underground rights as provided in NRS 534.090. Representatives of persons interested in the Diamond Valley area and holders of rights to appropriate water for irrigation purposes in that area gave testimony before legislative committees regarding a possible amendment to NRS 534.090. No amendments to that statute were adopted by the 1977 Legislature.

VIII

Forfeiture of a water right does not become final until expiration of a time of appeal of a ruling declaring such right forfeited as provided for in NRS 533.450. 16/

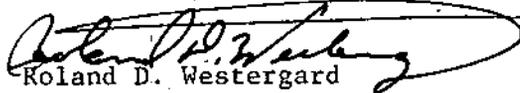

IX

Evidence, Information and data available clearly and conclusively establish that for a period of in excess of 15 successive years water has not been beneficially used for the purposes for which the water rights were acquired under Permit 20488, Certificate 7353 on the SW1/4 of Section 22, T.21N., R.53E., M.D.B.&M.

RULING

It is hereby ruled and declared that the rights to appropriate water under Permit 20488, Certificate 7353 appurtenant to the SW1/4 of Section 22, T.21N., R.53E., M.D.B.&M. have been forfeited because of failure for in excess of 5 successive years on the part of the holder of the rights to use beneficially the underground water for the purposes for which said rights were acquired.

Respectfully submitted,

Roland D. Westergard
State Engineer

RDW/BLR/bl

Dated this 29th day
of SEPTEMBER, 1978.
