

either vested or rights acquired prior to March 1, 1905, or under applications to appropriate water. It was found that there is water subject to appropriation; therefore, it is ordered that the protests to the granting of a permit under Application No. 10982 be overruled and a permit be issued following receipt of the statutory fee with the provisions that the amount of water to be diverted shall not exceed five (5.0) c.f.s. and the seasonal duty not to exceed 4 acre-feet for each acre irrigated.

Respectfully submitted,

ALFRED MERRITT SMITH
State Engineer

Dated January 31st, 1950.
