FINDINGS OF FACT

I.

Application 52286 was filed on July 1, 1988 to change the point of diversion, place of use and manner of use of Permit 45580. A permit was granted under 52286 on June 9, 1989.

II.

On June 20, 1991, Ruling 3810 was issued by the State Engineer rescinding the approval of Permit 52286 and denying the application. The grounds for the denial are set forth in Ruling 3810.

III.

On June 21, 1993, Judge Richard Wagner, Fifth Judicial District Court of the State of Nevada in and for the County of Nye issued a Stipulation and Order Re Dismissal which was signed by all parties involved in Case No. 12223. The Stipulation and Order Re Dismissal among other things required the State Engineer to reinstate Permit 52286 upon a showing that Ronald Floyd and Charlotte Floyd have conveyed Permit 52286 to Central Nevada Utility Company. The justification for this action is set forth in the aforementioned document and addressed the grounds for rescinding the original approval and denying Application 52286.

IV.

On July 19, 1993, the State Engineer received a copy of a Quitclaim Deed recorded in the Nye County Recorder's office conveying from Ron Floyd and Charlotte Floyd any and all interest they may have in Permit 52286.

CONCLUSION

I.

The State Engineer has jurisdiction in this matter pursuant to NRS 533 and NRS 534.

II.

The conditions of the Stipulation and Order Re Dismissal issued by Judge Wagner on June 21, 1993 concerning Permit 52286 have been met.

RULING

The denial of Application 52286 is hereby rescinded and Permit 52286 is reinstated subject to all the terms and conditions originally imposed with the exception that the Proof of Beneficial Use will be due on or before May 17, 1995.

Respectfully submitted,

  
R. MICHAEL TURNIPSEED  
State Engineer
