R U L I N G

General:

Protests to the granting of Applications 20745 and 20746 were filed November 30, 1962, by W. Dalton LaRue and Juanita S. LaRue.

It is the opinion of this office that, based on a 1948 United States Geological Survey report, there is unappropriated water in the source and that the proposed applications will not interfere with the existing water rights.

RULING

The protests to the granting of these applications are herewith overruled on the grounds that their granting will not impair the value of existing water rights or be otherwise detrimental to the public welfare. Permits will be issued under these applications on receipt of the statutory permit fees.

Respectfully submitted,

Elmo J. DeRicco  
State Engineer
