

Route 2 Box 11,  
Austin, Nevada.  
December 28, 1964

Mr Herbert E. Winchester,  
Division of Water Resources,  
Carson City, Nevada.

Dear Mr Winchester:

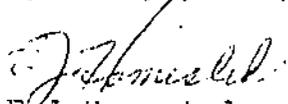

In reference to the log filed by Ward E. King in SE Sec, 6, T. 13 N., R. 43E.,--

This log that was presented is a fictitious one in as much as Mr King did not keep a log while working here.

This well will not be used for anything-- the casing will be pulled and the hole covered.

There is a well twenty five feet from the hole Mr King put in the ground. This old well has been there for fifty years. It has been cleaned out and is flowing but we do not plan to use this well for irrigation either.

Very truly yours,

  
E.J. Homestead
