LAS VEGAS OFFICE

Dear Mr. Dotchin

SECOR International Incorporated (SECOR) on behalf of its client, 7-Eleven, Incorporated, is providing this well abandonment report pursuant to Nevada Division of Environmental Protection correspondence dated September 8, 2006. Well abandonment activities were conducted by Eagle Drilling Services (Eagle) of Las Vegas, Nevada, a State of Nevada licensed driller at the above-referenced site (Figure 1).

On November 14 and 15, 2006, SECOR personnel observed the well abandonment of seven on- and off- site groundwater monitoring wells (MW-1 through MW-7) (Figure 2). The monitoring wells were abandoned by first removing the entire length of the casing and then filling the boreholes, bottom to top, with hydrated bentonite chips. The top 8-inches of the boreholes and former well collars were filled with concrete and sealed flush with the asphalt surface. The well boxes and concrete well collars were chipped/drilled out and the debris from field activities were disposed of by Eagle. An *Intent to Drill Card* and *Well Drillers Report* were submitted to the Nevada Division of Water Resources by Eagle.

If you have any questions regarding this matter, please contact the undersigned at (702) 798-3911.

Sincerely,
SECOR International Incorporated
