Attn: Dean Goodall

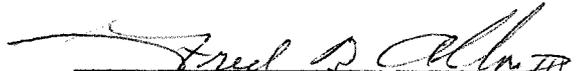

Dear Dean,

215-618-21 vpsb  
Kalb Construction  
Use = Unknown

On March 10, 1989 we cemented a water well for Kalb Construction. The well was located at 3763 Las Vegas Blvd. So. It was 8" in diameter and 278 feet deep, with a static water of 85 feet. The well used approximately 4.5 yards of 9 sack cement grout. The well was perforated from 278' to 50' and the cement dropped from the surface as per your approval.

There was also a sign hole approximately 10' away from the well that had 10" casing and was 15' deep, which we also filled with concrete.

Respectfully,

  
Fred B. Allen III

FBA/tj
