Attn: Dean Goodall

Dear Dean,

208-61833 - DGB
Hydrosearch
Use = Unknown

On March 22, 1990 we cemented two shallow wells located at West Charleston Blvd. and Martin Luther King at a Texaco station for a company out of Reno Nevada called Hydrosearch.

Both wells were 35 feet deep with 4" pvc casing, which we drilled up and cleaned out with a 12" auger bit. We concreted the wells from 35 feet up to the surface and it took approximately 2-1/4 yards for both wells.

If you have any questions please feel free to call me at the office.

Respectfully,

Fred B. Allen III

FBA/tj
