Dear Mr. Al Rushanan:

SECOR International Incorporated (SECOR) on behalf of its client, 7-Eleven, Incorporated, is providing this well abandonment report. Well abandonment activities were conducted on August 17, 2000 by Mark Crosby Construction Services (M.C.C.S.).

SECOR personnel supervised well abandonment of MW-8 (Figure 1) on August 17, 2000. Mark Crosby Construction Services, a State of Nevada licensed driller, was contracted to abandon the well. The well was abandoned by removing the well casing. The well cover and concrete well pads were chipped out. Debris from the well was disposed of in an off-site dumpster. The well was then filled with bentonite to approximately 3 feet below the ground surface, and then grouted and topped with cement.

An *Intent to Drill Card* and *Well Drillers Reports* were submitted to the Nevada Division of Water Resources by the driller.
