6 Additional Notes or Comments
Well was previously buried and we were unable to abandon it. Originally a log was turned in to that effect dated 12-24-08.
The well was originally 50ft deep. The contractor on site had cut approximately 25 feet deep removing the upper part of the well casing. The remaining casing was removed by over drilling and the hole was filled with with Bentonite Hole Plug to the surface which was then the top of the water table. The contractor still has a cut of 5ft feet to go

Neat Cement Fluid Weight lbs/gal
Bentonite Grout % bentonite

Date Started 1-22-09
Date Completed 1-22-09

9 DRILLER'S CERTIFICATION
This well was plugged and abandoned under my supervision and the report is true to the best of my knowledge.
