RE: Waiver for temporary dewatering from twenty (20) wells to alleviate the shallow ground water hazard during the construction at the Pitman Railroad East Conveyance, APN 178-16-501-001, NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 16, T. 22S., R. 62E., MDM, Clark County, Nevada. **Local ID: 212 S22 E62 16 Ab**

Mr. Keating:

This is in response to your request, received in this office on March 4, 2009, and subsequent information received on March 6, 2009; to construct twenty (20) wells for the purpose of dewatering to alleviate a shallow ground water hazard within a designated basin area is herewith **granted** pursuant to Nevada Revised Statutes (NRS) 534.050(2)(c). The dewatering is allowed from the wells to be constructed in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 16, T. 22S, R. 62E, in Henderson, Clark County, Nevada on APN 178-16-501-001.

Your Affidavit of Intent to Abandon a Well was received on March 4, 2008, and is on file with this office. The wells shall be completed with ASTM F-480 PVC well casing as provided in NAC 534.362 or with steel well casing. The annular sealing requirement provided in NAC 534.380 is hereby waived. A bentonite plug or annular seal shall extend for at least three (3) feet above the top of the water table and the wellhead shall be protected from damage due to vandalism or sunlight. All other regulations shall remain in effect. Upon project completion, the well shall be plugged as required in NAC 535.420 (5)(a), from the approximate total depth to surface, with cement grout as defined in NAC 534.060.
