7. WELL PLUGGING PROCEDURE  
Was well cleaned out to total depth?  Yes  No  
If well was not cleaned out to total depth, please explain why:  
**Cost to clean 4' of fill exceeds the price to abandon. Well has always been in service, so there is no contamination in the well. Bottom of well is at 393' at this time.**

Was the well contaminated?  Yes  No  
Was the casing pulled?  Yes  No  
Was the casing over drilled?  Yes  No  
If casing was left in place, please show where additional perforations were made:  
Additional Perforations:  
Type of perforator used:  
From                      feet to                      feet Number of perms per linear foot                       
From                      feet to                      feet Number of perms per linear foot                       
From                      feet to                      feet Number of perms per linear foot                       
From                      feet to                      feet Number of perms per linear foot                       
From                      feet to                      feet Number of perms per linear foot                       
From                      feet to                      feet Number of perms per linear foot
