6. Additional Notes or Comments
We abandoned this well after removing the existing pump and pipe from the well. There was 13' of fill from use of the well from 1967. The top of the casing was secure and therefore the fill was from loose sand during well use many years ago. There was approximately 3' of water in the well. This well was supposed to be abandoned when the well on NOI 18957 was drilled. The well is now properly abandoned under our NOI shown. This well was identified as a Recreational/Domestic Well.
