#30821 (orig. well)

PWE-6: SW1/4, SE1/4 Section 17, T36N, R50E
Permit W-286 N 14133: E 15970

#34841 (plug)

September 7-8, 1990 the well was abandoned utilizing the same procedures outlined above, with the following exceptions:

212 shape charges were placed in the interval 55 feet to 470 feet in a staggered pattern. The bentonite slurry circulated in place had the following characteristics; 9.0 ppg and a 66 vis.

The above referenced abandonments were completed by Layne-Western Company, Inc. of Phoenix, Arizona. The licensed driller on site was Scott Campbell, License No. 1616.

Please contact Robert M. Huskisson or Scott Campbell of Layne-Western Company, Inc. at 602-895-9404 with any questions. Thank you.

Sincerely,

Layne-Western Company, Inc.

Scott Campbell
