The old well was abandoned by installing a 1 1/2" pipe to 200'.
9 3/4 yards, consisting of a 27 sack-mix of water and cement
was pumped down the pipe on 10-26-90. On 10-29-90 1 1/2 yards
of a 9 sack mix was used to fill in the last 8' of the well and
the remainder to fill the sunken area around the old well.

The abandonment of this well was supervised by personnel from
the State Engineer's office.
