 Deepen  Other   
 4. PROPOSED USE  
 Domestic  Irrigation  Test   
 Municipal  Industrial  Stock  Other   
 5. TYPE WELL  
 Cable  Rotary   
 Other

6. LITHOLOGIC LOG

Material	Water Strata	From	To	Thick-ness
The following information is on the abandonment of the well belonging to Fulstone. At the time of the abandonment I was doing the pump testing on the replacement well that Humboldt Drilling had drilled. I did witness that the hole had caved to 250' and that Peri Brothers did complete the abandonment procedure. Nine sack grout mix was used. I do not recall how many yards was used, but I do remember there being 2 trucks. 4" pipe was used to 120' w/ a chute that tremeled the concrete. Concrete filled the hole to 8' below the grounds surface, at which point the casing was cut off. This was then buried. This well is now being farmed over. Please keep in mind I did not do the abandonment, I was only an observer.
