Monitoring Well Installation
PDQ/Winners Corner
1365 Baring Boulevard
Sparks, Nevada

Gentlemen:

This letter explains Pezonella Associates' role in the monitor well installation at the PDQ/Winners Corner Market located at 1365 Baring Boulevard, Sparks, Nevada. Pezonella Associates was requested to install four ground water remediation wells at the market by Steffen Robertson and Kirsten (SRK). We were to perform the work on January 6 through 9, 1992. Upon receipt of the monitor well waiver (Monitor Well Waiver number M/O-422A) on January 9, 1992, we noted that the waiver approved the installation of three wells. At the same time we were given a copy of the Intent To Drill Card and noted that the card was dated November 30, 1991 and listed Andresen Drilling as the driller of record. Steffen Robertson and Kirsten personnel informed us that the work was to be originally performed by Andresen Drilling. However, due to unforeseen scheduling difficulties on the part of Andresen Drilling, the work could not be started. SRK then asked Pezonella Associates to perform the drilling; the starting date for the project was to be mid-December. However, due to scheduling difficulties on our part the work could not be started until early January.

To ensure proper documentation of the well installation, upon completion of the project, we contacted your office for guidance. Mr. Michael Anderson, representing your office, informed our driller, Mr. Mark Debusk, to file a new intent to drill card; Mr. Anderson also would ask SRK to submit a waiver request for the additional ground water monitoring well. Please find enclosed the new Intent To Drill Card for the project, along with a copy of the initial Intent To Drill Card for Andresen Drilling.
