Dear Mr. Gallagher:

This letter is to inform the Division of Water Resources that three monitoring wells formerly located at the Nevada Department of Transportation (NDOT) Lovelock Maintenance Station were destroyed during contaminated soil removal. The maintenance yard is located on the northwest corner of Grinnel Avenue and 6th Street.

The wells were located in the northeast 1/4 of the southwest 1/4 of Section 27, Township 26 North, Range 31 East. The permit waiver number for the wells was M/O-635. Contaminated soil was removed from the site from May 12 through 26, 1993. Excavation depths ranged from 20 to 22 feet and extended beyond the monitoring well locations. Monitoring well MW-3 (permit waiver number - M/O-635) and monitoring wells MW-5, 6, 7 and 8 (permit waiver number - M/O-635a) remain in place at the site.

If you have any questions, please call.

Very truly yours,

HARDING LAWSON ASSOCIATES
