Gentlemen:

This letter is to inform you of the plugging process of the monitor well located at ~~NW~~ of the ~~NW~~ Sec. 31 ~~T. 19N R29E~~ in Churchill County, Zsessor's Parcel # 001-532-07

On October 11, 1993 we set up and ripped the 2" Plastic Casing. The well was 15ft deep. It was then pumped with neat cement to the depth of the well. This was the completion of the abandonment process for this well.

Sincerely,

Wayne Parsons
