SUBJECT: Request for Waiver for Dewatering Wells

Dear Mr. Thompson:

Viking Drillers, Inc., is scheduled on or about March 9, 1998 to drill approximately thirty-three (33) temporary dewatering wells to aid in solidifying the soils to gain access for a proposed Residential/Mobile Home Development located in the NW1/4 of the NE1/4, Section 27, T.21S., R.62E. Staging will be at parcel 161-26-101-005 in Clark County, Nevada

We will construct the gravel packed dewatering wells from 20 to 25' deep, depending on the soils encountered around the perimeter edge of the site. We will install a 24" steel spacer, 10' long, inside each hole leaving the gravel pack down 10'.

Upon completion of dewatering requirements we will extract the PVC casing allowing the gravels to fall approximately 2', leaving an approximate 10+' void. Then, we will cap the well with cement/sand slurry.

The general contractor is securing permits for discharge of the water .

Owner: Saxton, Inc.
5440 Sahara Ave, 3rd Floor Las Vegas, NV 89102

General Contractor: Saratoga Land & Development
5440 Sahara Ave, 3rd Floor Las Vegas, NV 89102

We trust the above meets your approval.

Sincerely,

Scott A. Philliber
Driller # M-2090

Las Vegas, Nevada 89102 (Address where owner can be reached)

TELEPHONE NO. (702) 221-1111

the owner/agent of the property located at: parcel number 161-26-101-005
address North Broadbent Blvd & Tropicana Clark County
legal description NW 1/4 NE 1/4 Section 27, T. 21 S N., R. 62 E.

I fully understands that if a waiver is granted by the Nevada Division of Water Resources for the drilling of a monitor, dewatering, mining and milling, oil & gas, exploratory, construction and/or environmental well(s), I will be responsible for the plugging and abandonment of the well(s) in accordance with the provisions contained in Nevada Administrative Code (NAC) 534.420 and all other applicable rules and regulations for drilling/plugging wells in the State of Nevada upon project completion. If the length of the project shall be more than one year, it is my responsibility to request an extension of time from the Division of Water Resources.

If I should release Viking Drillers, Inc. (Environmental Consultant/Agent) from completing the environmental work, i.e. monitoring, well abandonment etc., I assume the responsibility to notify DWR of the change.

I will make any purchaser of said parcel aware of these conditions.

RE: Waiver for construction of thirty-three (33) temporary dewatering wells for the proposed Residential/Mobile Home Development located in the NW $\frac{1}{4}$ of the NE $\frac{1}{4}$, Section 27, T.21S., R.62E. Staging will be at parcel #161-26-101-005.

Dear Mr. Philliber:

Under the provisions of Section 534.450 of the Regulation for Water Well and Related Drilling, as adopted under Chapter 534 of the Nevada Administrative Code, and for good cause shown, authorization is herewith granted to drill the subject wells as described in your letter dated March 3, 1998. This office waives only NAC 534.380(1). All of the dewatering wells are to be plugged by extracting the PVC and surface casing allowing the gravel to fall approximately 2 feet creating a 10 to 12 foot void. Then, the wells are to be plugged from the top of the gravel to ground surface with a cement/sand slurry. If any of the wells penetrate the uppermost impermeable layer (caliche) underlying the perched aquifer the wells must be plugged as required under NAC 534.420. Once the wells have been drilled, please provide this office with a map showing the exact locations of each dewatering well. It will be important upon project completion to locate these wells and verify that they are plugged and abandoned properly.

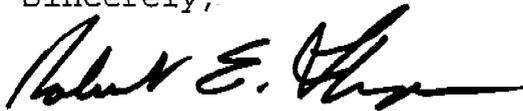

Under NRS 534.050(2c) "if practical, the withdrawn water must be used for some other beneficial use." According to this provision, the water may and should be used for as much dust control watering as deemed reasonable. Full compliance with the remainder of the statute and regulation is required. A permit to discharge may be required by the Nevada Division of Environmental Protection. It is expressly understood this authorization does not relieve the operator of the permitting requirements of other state, federal and local agencies.

Viking Drillers, Inc.
DW-1083

The dewatering wells must be drilled by a well driller licensed in the State of Nevada. The completion report, when filed, shall bear Waiver No. DW-1083, and the name and license number of the driller.

A copy of this authorization must be transmitted to the on-site well driller prior to starting any drilling.

Sincerely,

Robert E. Thompson
Drilling Supervisor
