NOTICE OF ABANDONMENT

To All Customers,

As pursuant to NRS534.300 a water well may be drilled to replace an existing well. The existing well must be plugged at the time the replacement well is drilled. If continued use will be made of the existing well, a permit or waiver must be issued for the replacement well before any drilling is commenced. The plugging of the well must be done by a licensed well driller. A well drillers log has to be filed with the State of Nevada Division of Water Resources for the Drilling of the replacement well, as well as the Abandonment of the existing well.

I, the undersigned, have read and understand that by contracting to have a replacement well drilled I must have the existing well plugged by a licensed well driller.

Butch Peri by Dusty Nuck Date: 8/13/99
