**RE: WELL ABANDONMENT REPORT  
7-ELEVEN STORE NO. 20145  
1453 NORTH BOULDER HIGHWAY  
HENDERSON, NEVADA  
FACILITY ID NO. 8-000574**

Dear Ms. Anderson:

SECOR International Incorporated (SECOR) on behalf of its client, 7-Eleven, Incorporated, is providing this well abandonment report pursuant to Nevada Division of Environmental Protection correspondence dated December 10, 2004. Well abandonment activities were conducted by Eagle Drilling Services (Eagle) of Las Vegas, Nevada, a State of Nevada licensed driller.

On January 27, 2005, SECOR personnel observed the well abandonment of two wells (MW-1 and MW-2) on-site (Figure 1). Wells were abandoned by first removing the entire length of the casing and then filling the borehole bottom to top with cement grout. The top 8-inches of the casing and former well collar were filled in with cement and sealed flush with the parking lot surface. The well boxes and concrete well collars were chipped/drilled out and the debris from field activities was disposed in an off-site dumpster. An *Intent to Drill Card* and *Well Drillers Report* were submitted to the Nevada Division of Water Resources by Eagle.

If you have any questions regarding this matter, please contact the undersigned at (702) 798-3911.

Sincerely,  
**SECOR International Incorporated**
