APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit to change the manner and place of use of the waters of an underground source as heretofore granted under Permit 11842 is issued subject to the terms and conditions imposed in said Permit 11842 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a meter must be installed in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit authorizes and confirms a period of use of Jan. 1st to Dec. 31 of each year.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.625 cubic feet per second, but not to exceed 665

acre-feet annually.

Actual construction work shall begin on or before January 24, 1973

Proof of commencement of work shall be filed before February 24, 1973

Work must be prosecuted with reasonable diligence and be completed on or before January 24, 1974

Proof of completion of work shall be filed before February 24, 1974

Application of water to beneficial use shall be made on or before January 24, 1977

Proof of the application of water to beneficial use shall be filed on or before February 24, 1977
