Attachment to Application to Change a Portion of Permit 17500, Certificate 5063

Question 15 - Remarks

Please use the map on file at the Division of Water Resources under Application 17300 to support the existing point of diversion and place of use, and under Application 60640 to support the proposed point of diversion and place of use. Please refer to Water Rights Quitclaim Deed, Douglas County Document No. 354067, on file at the Division of Water Resources under Permit 17300 to clarify the amount of water applied for under this application.

The Carson Valley Comprehensive Water Plan, on file at the Division of Water Resources, shows a future population at "build out" of 82,000. The Water Plan further indicates that the water rights presently held by The Town of Minden and the Gardnerville Town Water Company will be needed to meet the associated water demand under the needs indicated in the Carson Valley Water Plan. The estimated time to construct all of the improvements and place the water to full beneficial use will be directly related to reaching the master plan level of development as projected in the Comprehensive Water Plan.
