APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion, place of use and manner of use of a portion of the waters of the Truckee River as heretofore granted under Permit 63620 which changed the point of diversion, place of use and manner of use of a portion of Permit 41664 which changed the place of use and manner of use of a portion of Claim No. 191, Truckee River Decree is issued subject to the terms and conditions imposed in said decree and with the understanding that no other rights on the source will be affected by the change proposed herein. A suitable measuring device must be installed and accurate measurements of water placed to beneficial use must be kept.

A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of the water placed to beneficial use. The totalizing meter must be installed before any use of water begins.

The location and design of the induction well must be approved by the State Engineer prior to the drilling of the induction well.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The issuance of this temporary permit fully abrogates 30.42 acre-feet per season associated with the 8.45 acres under Truckee River Claim 191.

The issuance of this temporary permit is for the consumptive use portion only, being 2.5 acre-feet per acre of the base right. The remaining portion of the base right will remain in the river for use by other decreed right holders.

This temporary permit is subject to the continuing jurisdiction and regulation by the Federal Water Master.

A monthly report shall be submitted to the Federal Water Master within 10 days from the end of each month which shall include the amount of water diverted and the amount of water used.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on December 31, 2006 at which time all rights herein granted shall revert to the right being changed by this temporary permit.

(CONTINUED ON PAGE 3)

(PERMIT TERMS CONTINUED)

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0923 cubic feet per second, but not to exceed 21.125 acre-feet as decreed.

Work must be prosecuted with reasonable diligence and be completed on or before:

N/A - Temporary

Proof of completion of work shall be filed on or before:
