The permittee shall report to the State Engineer on a quarterly basis the effect of pumping the well under this permit on other previously existing wells that are located within 2,500 feet of the well under this permit. Any pumping of water under this permit may be limited or prohibited to prevent any unreasonable adverse effects on an existing domestic well located within 2,500 feet of the well under this permit, unless the holder of this permit and the owner of the domestic well have agreed to alternative measures that mitigate adverse effects.

If any water under this permit is cancelled, withdrawn, or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

This permit is issued for municipal purposes to provide service to the E. Street Apartments, LLC in Pahrump, Nevada.

Any dedication of water from this permit for residential service shall be allocated at the tiered dedication rate prescribed, by letter dated November 4, 2008, by the State Engineer. The State Engineer may amend this dedicated allocation based on evidence and supporting data.
