APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion the waters of the Truckee River as heretofore granted under Permit 53249, which changed the place and manner of use of Permit 48392, which changed the point of diversion, place and manner of use of a portion of Claims 480, 481, 482 and 484, Truckee River Decree, is issued subject to the terms and conditions imposed in said decree and with the understanding that no other rights on the source will be affected by the change proposed herein. A suitable measuring device must be installed and accurate measurements of water placed to beneficial use must be kept.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

That portion of the creek, drain and waste water described under Claims 480, 481 and 482 of the Truckee River Decree historically applied to the existing place of use shall not be applied to land or otherwise consumptively used and shall be directed to flow naturally to the Truckee River or Steamboat Creek.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.041 cubic feet per second or 4.37 acre-feet as decreed.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

N/A

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

September 8, 2018

Map in support of proof of beneficial use shall be filed on or before:
