This permit to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 60638, is issued subject to the terms and conditions imposed in said Permit 60638, and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed.
