

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: NYE COUNTY BOARD OF COMMISSIONERS
Source: UNDERGROUND
Basin: PAHRUMP VALLEY
Manner of Use: QUASI-MUNICIPAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 05/16/2012

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of diversion herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of diversion actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 81896, 81897, 81898 and 81899, having the same point of diversion and place of use, shall not exceed 59.82 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued for quasi-municipal purposes within the described place of use, further described by the Nye County Assessor as APN 042-071-07.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.49 cubic feet per second or 59.82 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

February 6 2014

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

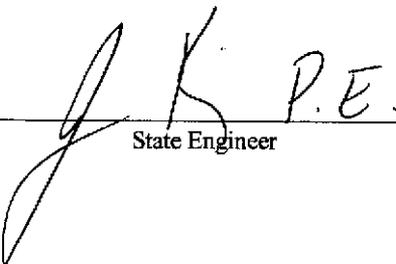

February 6 2018

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 6th day of **February, 2013**

State Engineer

STATE ENGINEERS OFFICE

162-127

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

Within the SW1/4SW1/4 Section 24, T20S, R53E, M.D.B.&M. or at a point from which the W1/4 corner of Section 24, bears North 24 degrees 58 minutes 09 seconds West, a distace of 1,988.75 feet.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

32 acres within the SE1/4SE1/4 of Section 23, the SW1/4SW1/4, SE1/4SW1/4, and SW1/4SE1/4 of section 24, and the NW1/4NW1/4 of Section 25, all in T20S, R53E, M.D.B.&M.

7. Use will begin about January 01 and end about December 31 of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Drilled well with up to a 30 hp submersible pump, totalizer, well house, connected to the existing irrigation system with future expansion of the irrigation distribution system as future facilities come on line.

9. Estimated cost of works: \$100,000

10. Estimated time required to construct works: 1 year to complete well project

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 10 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

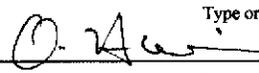

The water will be used for the irrigation of the entire property known as Calvada Eye, APN 42-071-07, the median within Calvada Boulevard from the Calvada Eye to State Route 160, and occasional filling of the pond at the Calvada Eye.

13. Miscellaneous remarks:

This application is a request to increase the diversion rate for Permit No. 30471 and Permit 38967 to a combined total of 0.49 cfs. No additional Water is being applied for. (38967 is a supplemental Water Right to 30471)
