

STATE OF NEVADA

CERTIFICATE OF APPROPRIATION OF WATER

WHEREAS, Debra D. Maurer, Agent, has presented to the State Engineer of the State of Nevada, Proof of Application of Water to Beneficial Use, from the Truckee River through the Highland Ditch for as decreed purposes. The point of diversion of water from the source is as follows:

Highland Ditch

SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 9, T.19N., R.18E., M.D.B.&M., or at a point from which the SE corner of said Section 9 bears S. 75°16'E., a distance of 1,650.0 feet situated in Washoe County, State of Nevada.

Under the provisions of NRS 533.425, the State Engineer has determined the date, source, purpose, amount of appropriation, and the place where such water is appurtenant, as follows:

Name of appropriator:	Roy Arnold Walker and Randi Lee Walker
Source:	Truckee River via the Highland Ditch
Manner of use:	As Decreed
Amount of appropriation:	0.019 c.f.s., but not to exceed 1.51 acre-feet as decreed
Period of use:	As Decreed
Date of priority of appropriation:	*April 15, 1917

Description of the works of diversion, manner and place of use:

Water is diverted from the Truckee River through the Highland Ditch, thence via a 3.0 H.P. Myers submersible pump, pipeline and totalizing meter to a distribution system for sprinkler and drip irrigation of 0.40 acres of landscaping located within portions of the NW $\frac{1}{4}$ SE $\frac{1}{4}$ and NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 13, T.19N., R.18E., M.D.B.&M., being further described as within a portion of Assessor's Parcel Number 039-148-30, Washoe County, Nevada.

*This certificate changes the place of use of a portion of Claim 105, Truckee River Final Decree, in United States v. Orr Water Ditch Co., In Equity Docket No. A-3 (D. Nevada 1944), therefore, the date of priority remains the same as Claim 105.

This certificate corrects the permitted point of diversion of water from the source to the Highland Ditch as decreed rather than the specific location of the pump in the Highland Ditch.

This certificate is issued subject to the terms of the permit with the understanding that the total duty of water shall not exceed 3.75 acre-feet per acre as decreed from all sources and is subject to the continuing jurisdiction and regulation by the Federal Water Master and the State Engineer.

The right to water hereby determined is limited to the amount which can be beneficially used, not to exceed the amount above specified, and the use is restricted to the place and for the purpose as set forth herein.

IN TESTIMONY WHEREOF, I, JASON KING, P.E., State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 14th day of August, 2012.

State Engineer
