

IN THE OFFICE OF THE STATE ENGINEER
OF THE STATE OF NEVADA

O R D E R

Las Vegas Portland Cement, Inc.
801 South Rancho Drive
Las Vegas, Nevada 89106

You have caused a well to be drilled within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 7, T.25S., R.60E., M.D.B.&M. Field inspection by personnel of the Division of Water Resources, Southern Nevada Office, have confirmed completion of the well including pump installation. NRS 534.050 (2), clearly states: "In other basins or portions therein which have not been designated by the State Engineer no application or permit to appropriate such water is necessary until after the well is sunk or bored and water developed. Before any legal diversion of water can be made from the well, the appropriator must make application to and obtain from the State Engineer, in accordance with the provisions of chapter 533 of NRS, a permit to appropriate such water."

Field inspection has confirmed that you are presently pumping and diverting waters from the above described well in clear violation of NRS 534.050 (2).

You are hereby ordered to cease and desist immediately the diversion of water from said well until compliance with NRS Chapter 533 and Chapter 534 has been met.

Peter G. Morros
State Engineer

Dated at Carson City, Nevada, this
4th day of February, 1982.
