

Granite Spring and Creek are on the customary driving route between summer and winter ranges and the railroad at Gerlach, and has been used for many years as a watering place for stock while passing on the route. The range in the immediate vicinity of Granite Spring and Creek is the same as the range in the immediate vicinity of Granite Spring and Creek. The water of this source that will interfere with its use as a public watering place, as provided in Dec. 3, Stock Watering Act of Nevada, 1925.
