GENERAL:

Application 15623 was filed by Stanley W. Hadfield on May 3, 1954 for permission to appropriate 10.0 c.f.s. of water from an underground source for irrigation (1280 acres) and domestic purposes. The proposed point of diversion is described as within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 17, T. 38 N., R. 39 E., M.D.B.&M. The proposed place of use is described as Sections 16 and 17, T. 38 N., R. 39 E., M.D.B.&M.

A permit was issued under this application April 12, 1955 for 6.0 c.f.s. of water. This permit was assigned down to W. S. and Jennie Hill, as joint tenants, on January 18, 1960.

The Proof of Beneficial Use and Cultural Map were submitted under this permit on November 14, 1962. The Cultural Map was returned to the water right surveyor on August 20, 1968.

A letter dated November 19, 1962 was sent to the water right surveyor stating that an application to correct the point of diversion under this permit was required. Another letter, dated January 20, 1965 to Mr. William S. Hill gave notice that an application to change the point of diversion under this permit was required. Application 22451 was filed on February 22, 1965 to correct the point of diversion under Permit 15623. However, Application 22451 was cancelled on September 17, 1965 because of failure of the applicant to return the corrected application within the statutory time.

A letter dated August 4, 1969 was sent to William S. Hill, giving notice that an application to change the point of diversion under Permit 15623 and the Cultural Map and supporting map must be submitted to keep this permit in good standing.

A letter dated September 3, 1969 was sent to Mr. Hill by certified mail giving 30 days in which to file said application to change. A return receipt signed by Jessie Hill was received in this office September 5, 1969. No replies have been received to these letters.
