

IN THE MATTER OF APPLICATION)
37696 TO APPROPRIATE WATER)
FROM AN UNDERGROUND SOURCE)
IN COLORADO VALLEY, CLARK)
COUNTY, NEVADA.)

R U L I N G

213

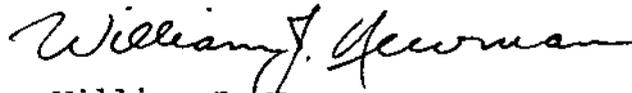

GENERAL:

An application to appropriate water in the name of William L. Daly was received by the State Engineer's office on March 30, 1979. In accordance with normal office procedures as required under NRS 533.355, the application was time stamped upon receipt at 10:06 a.m. on that date. However, upon the assignment of consecutive serial numbers to all applications received on that day, the application by William L. Daly was inadvertently overlooked and was not assigned a serial number. This oversight was noted at a later date, and at that time the application was assigned Serial No. 37696. If the application had been assigned a serial number at the time it was received, it should have received Serial No. 37377.

RULING

This Ruling will serve as a finding and notice that the priority date of Application 37696 is established as March 30, 1979.

Respectfully submitted,

William J. Newman
State Engineer

WJN:BAR:jw

Dated this 2nd day of

May, 1979.
