

IN THE MATTER OF APPLICATION 41430 TO)
APPROPRIATE WATER FROM AN UNDERGROUND)
SOURCE IN CARSON DESERT, CHURCHILL)
COUNTY, NEVADA)

R U L I N G

GENERAL

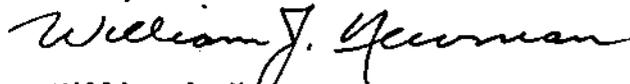

101

An application to appropriate water in the name of Anadarko Production Company was received by the State Engineer's office on May 19, 1980. In accordance with normal office procedures as required under NRS 533.355, the application was time stamped upon receipt at 4:29 p.m. on that date. However, upon the assignment of consecutive serial numbers to all applications received on that day, the application by Anadarko Production Company was inadvertently overlooked and was not assigned a serial number. This oversight was noted at a later date, and at that time the application was assigned Serial No. 41430. If the application had been assigned a serial number at the time it was received, it should have received Serial No. 41405.

RULING

This Ruling will serve as a finding and notice that the priority date of Application 41430 is established as May 19, 1980.

Respectfully submitted,

William J. Newman
State Engineer

WJN/HW/ja

Dated this 5th day
of JUNE, 1980.
