CONCLUSIONS

I.

The State Engineer has jurisdiction<sup>5</sup> over the matter described herein.

II.

Application 38654 was filed in support of Desert Land Entry. The Desert Land Entry application described under III of Findings has been closed on the records of the Bureau of Land Management, therefore, the applicant does not own or control the land described under the place of use of the application and cannot demonstrate the ability to place the water to beneficial use.

III.

To grant application to appropriate the public waters for irrigation on lands the applicant does not own or control or where the applicant cannot demonstrate the ability to place the water to beneficial use, would not be in the public interest and welfare.

RULING

Application 38654 is herewith denied on the grounds that to grant the application for irrigation purposes on lands that the applicant does not own or control and cannot demonstrate the ability to place the water to beneficial use, would not be in the public interest and welfare.
