Dear Dean,

On December 08, 1989 we cemented two water wells located at Post Rd. and Industrial for Safeco Insurance Company in Seattle, Washington. The first well was 196 feet deep with a static water level of 180 feet. The second well was 268 feet deep with a static water level of 190 feet. Both wells were 8-5/8" casing, and took a total of 9 yards of concrete, cemented as per State Regulations.

Respectfully,

Fred B. Allen III

FBA/tj
