Dear Dean,

On June 14, 1990 we cemented two water wells for Sam Gallard. The wells were located on the SW corner of Pecos and University Roads. Well #1 was 190 feet deep, 8" casing and a static water level of 20 feet. Well #2 was 103 feet deep, 8" casing and also a static water level of 20 feet. Both wells took a total of 5-1/4 yards of neat cement.

Sincerely,

Fred B. Allen III
