Mr. Joseph C. Marr  
District Geologist  
Angst, Inc.  
P. O. Box 1030  
Beatty, Nevada 89003

Dear Mr. Marr:

This office is in receipt of your letter dated March 27 regarding the plugging of two drill holes south of Crystal Springs, which is north of Beatty.

The Nevada Division of Water Resources appreciates your cooperation in this matter.

Very truly yours,

  
G.W. Quinn  
Chief Engineer

Re: Plugged Drillholes South of Crystal Springs

Dear Mr. Quinn:

As per our conversations, regarding the drillholes in the Crystal Spring area; both drillholes have been backfilled to the surface on March 17, 1989. Granular bentonite backfill was employed to 20 feet from the surface and the remaining hole stemmed with cuttings and bentonitic soil to the surface.

Holes S-1 and S-2 are located in the NW $\frac{1}{4}$ , NE $\frac{1}{4}$ , SE $\frac{1}{4}$  of Section 18, and NE $\frac{1}{4}$ , NE $\frac{1}{4}$ , SE $\frac{1}{4}$  of Section 18, T 11S, R 47E respectively. Collar elevations are 3897.2 feet and 3880.0 feet and water levels (static) are 3652 feet and 3625 feet respectively. The water was cold (65°F). (See attached map).

If you have any questions regarding this matter, please contact this office.

Sincerely,

Joseph C. Marr  
District Geologist
