Re: DW-1266 Well Completion Reports

Dear Tracy,

Per our conversation, enclosed are the Well Drillers Plugging Reports for the seven (7) temporary dewatering wells drilled along the Public Right of Way on Theme Rd and the Common Area south of Theme Rd. for the Emergency Sewer Repair work. These wells were directly adjacent to the pipeline being repaired and during the repair work the wells were completely consumed. As a result, there were no wells to abandon. Additionally, because of the unpredictable timeline for this emergency repair work and the need to expedite construction, a NOI card for well abandonment was not filed. Once again, these wells were temporary dewatering wells.

Sincerely

Sean LaChapelle
Area Manager
